Foreign direct investment (FDI) flows to developing countries in Asia increased by 4% to \$535 billion in 2020, reflecting resilience amid global FDI contraction, according to UNCTAD's World Investment Report 2021, published on 21 June.

"Despite the pandemic, FDI to and from the region remained resilient in 2020. Developing Asia is the only region recording FDI growth, accounting for more than half of global inward and outward FDI flows" -- UNCTAD

This Webinar will feature a keynote by [] on the FDI Opportunities in Sabah, Malaysia followed by a regional panel of lawyers providing post pandemic updates in Asia.

The panel speakers will discuss impact of Covid19 pandemic on their respective economies and the impact on FDI and new opportunities in the post pandemic recovery.
