Organised by

LAWASIA, the Papua New Guinea Centre for Judicial Excellence, and the Papua New Guinea Law Society, are very pleased to co-host the **LAWASIA Environmental Law Conference 2026**, taking place from **19 to 21 August 2026** in **Port Moresby, Papua New Guinea**, with the support of the **South Pacific Lawyers' Association** and the **Commonwealth Lawyers Association**.

The conference theme is the *Environmental Rule of Law: what it is, how it is implemented, what are its threats, what are its institutions and how it can be upheld.*

This timely and important conference will bring together lawyers, policymakers, academics and judges from across the Asia-Pacific to explore the environmental rule of law.

Set against the backdrop of Papua New Guinea's unique natural and cultural heritage, the conference will offer a dynamic platform for learning, dialogue, collaboration and capacity-building in the field of environmental law.
